

# Ambu<sup>®</sup> Man Airway Wireless

# Ambu<sup>®</sup> Man Airway Instrument

Arms and legs optional available

## Key features

- Latest Ambu Wireless Technology
- robust and durable
- training of airway management: like laryngeal mask, laryngeal or tracheal tube, combitube, ET tube
- Bag mask ventilation and placement of gudel tubes
- Adjustable chest stiffness
- Airways open only with correct hyperextension
- Transport bag with integrated practice mat and backpack function

## AmbuMan Airway Wirelss

- Latest Ambu Wireless Technology
- Browser-based Ambu Manikin Management Modules for control, documentation and monitoring

## Ambu<sup>®</sup> Man Airway

With AmbuMan Airway all common methods of airway management can be trained. Therefore this training device is not equipped with the Ambu Hygiene System for mouth-to-mouth or mouth-to-nose Ventilation. The fullbody upgradekit is available as an option, whereby the manikin can also be brought into a sitting position. After unfolding the transport bag, it can be used as a comfortable practice mat.

### Monitoringinstrument

The indicator shows the instructor, the volume of supplied air (in L) and the chest compression depth (in mm). Furthermore it visualizes the compression with wrong hand position and a gastric inflation with a warning symbol.

### Ambu Manikin Management Modules

The core is the AmbuMan with the latest, integrated Ambu Wireless Technology. The browser-based Ambu Manikin Management Module allows the wireless control, documentation and monitoring of the performance of the trainees. The Ambu Manikin Management Module is the central interface, where all data and information come together: compression depth, right hand position, ventilation volume, stomach inflation.

### Airway management

Training of airway management: like laryngeal masks, laryngeal or tracheal tube. Bag-mask ventilation and use of the Guedel airway. Airways open only with correct hyperextension.

# Specifications

AmbuMan Airway Wirelss	Connectivity	✓	WLAN oder LAN Ambu Wireless Technology build on latest generation of Intel WLAN Modules
	Ambu Manikin Management Module	✓	Operating system independent and browser-based control, programmable scenarios, individual documentation up to 4 Participants, parallel display and control of up to 6 manikins, parallel multiple access of various devices for visualisation of the performance
	Power supply	✓	AC adapter, Battery pack or PoE (optional, not included in packaging)
Airway-Management		✓	Traning of airway management: like laryngeal masks, laryngeal or tracheal tube. Bag-mask ventilation and use of the Guedel airway. Airways open only with correct hyperextension
Manual feedback display		✓	extenable ventilation volume, compression depth, hand position, stomach inflation

## Technical data

Weight torso with transport bag	13 kg
Length torso	80 cm
Length fullbody	165

## Order information

Item number	Description
A 284 427 000	<b>AmbuMan Airway Wireless,</b> Torso, integrierte Ambu Wireless Technologie Ambu Manikin Management Module, Transport bag/ practice mat
A 284 424 000	<b>AmbuMan Instrument,</b> Torso, Transport bag/ practice mat
Zubehör	
234 000 077	Battery Pack
234 000 706	Upgradekit fullbody
266 000 517	Ambu Facpiece (1 piece)
234 000 794	Transport bag / practice mat

Ambu Man Airway Wireless Torso

Monitoring instrument

Ambu Manikin Management Module

Transport bag (practice mat incl.)
